The Microsoft Excel LTSC 2024 edition with product ID **DG7GMGF0PN5H** is part of the **Office LTSC Professional Plus 2024** suite.

✅ **Multi-User Support:**

Yes, **Microsoft Excel LTSC 2024 can support multiple users**, but **with some limitations** depending on how it is deployed:

🧩 **Scenarios of Multi-User Support:**

1. Shared System Access (like RDP or Terminal Server):

- ✅ **Supported** when deployed via **Remote Desktop Services (RDS)** or **Windows Server with multiple sessions**.
- Ideal for office setups where users access Excel remotely on a shared Windows environment.

2. Collaborative Editing in Real-Time (like Office 365):

- ❌ **Not supported** in LTSC 2024.
- LTSC is a **perpetual license** and **does not include cloud collaboration features** (e.g., co-authoring or auto-save using OneDrive).

3. Excel File Sharing on Shared Drives:

- ✅ Users can access shared Excel files on a network location or shared drive.
- ⚠️ Only **one user can edit at a time** unless using **Excel Online or 365**, which LTSC does not include.

📃 **Summary:**

Feature	Supported in Excel LTSC 2024
Multiple users on same system	✅ Yes, via RDS or Terminal Server
Real-time co-authoring	❌ No
File sharing on LAN/Drive	✅ Yes, with basic concurrency
OneDrive integration	❌ No
